10. Acoustic Guitar D.I.
11. Lead Vox
12. Bass Vox
13. Elec Gtr Vox
14. FX return L
15. FX return R

The Ben Smith Band as a 4-piece band play an acoustic rock style. Our style does not require excessive volume, but the PA supplied must be capable of providing clear and distortion free sound to the particular size room and audience.

We expect a reasonable standard of equipment: eg: Midas mixing desks, EAW speaker systems Shure SM58' and 57's for vocals and equipment, and appropriate miking for drums.

We request at least 3 sends of foldback (pictured) to provide a balanced stage sound. If possible the drumfill needs to be 15" and Horn or larger.

Extra equipment:

2 x D.I.'s (bass and Acoustic)
and at least 1 reverb unit, Yamaha SPX 990 or similar.

The band may have guest artists playing and their needs will be addressed prior to any appearances.

For more information please call: Pat Kearney 0407 058 198
